## Lead The Charge – One Season, Your Career In Pole Position

In June 2021 the Mercedes-EQ Formula E Team and Modis launched the search for an ambitious individual to join the team for one electrifying racing season. As the Official Engineering Partner of the Mercedes-EQ Formula E Team, Modis activated their talent specialists around the globe to find the perfect candidate for this opportunity of a lifetime and launched a unique campaign called “Lead the Charge – One Season, Your Career in Pole Position”

---

Jan Gupta “As a leading company in tech and digital engineering consulting, Modis offers tech talent services, so we’re used to finding, placing, and skilling the world’s top talents within technology, engineering, manufacturing, financial services, and other industries. To place somebody within the Mercedes-EQ Formula E Team, a group of people synonymous with excellence in engineering, is something really special and a phenomenal opportunity for somebody to launch their career in this exciting field.”

---

All applicants had the chance to participate in an interactive real-time live stream and learn more about the job and culture of the team through a chat answered by none other than the Team Principal Ian James himself. More than a thousand viewers from all around the world attended this Live Q&A and could enter their personal questions about the role and about the world of Formula E.

Engineering a Smarter Future Together

In less than four weeks, Modis received more than 2000 applicants from 66 countries who all strived for pursuing the chance to get this unique dream job during the eighth season of the ABB FIA Formula E World Championship. After undergoing a tough selection process including screenings, video interviews, and even an online simulation assessment, finally, Shreyas Raman was chosen as the winner of the “Lead the Charge” campaign.

*1 More than 2000 applicants from 66 countries pursued to win "Lead The Charge"*

Shreyas has been in the final year of his bachelor studies in Mechanical Engineering at Yale University. With his exciting motorsport experiences by engineering Yale’s first all-electric car for Formula Hybrid competition and his extraordinary performance throughout the selection phase he surpassed all challenges.

*2 Shreyas Raman was chosen as the winner of the “Lead the Charge” campaign.*

In November 2021, Shreyas moved to Brackley in the UK, where the headquarters of the Mercedes-EQ Formula E Team are based, and started his journey as the winner of this unique campaign. In his role he is responsible for liaising with key operational partners on technical and non-technical subjects, and implementing the sustainability strategy in race operations and team organization. By creating an initial spark for innovation, he contributes to a smarter future for everyone.

## About AKKA & Modis

AKKA & Modis, soon to become Akkodis, is a global leader in the engineering and R&D market that is leveraging the power of connected data to accelerate innovation and digital transformation.
