Health Check
Azure Governance And Security

A **Modis Health Check** provides independent assurance and challenges the status quo. Our actionable recommendations enable you to optimise cost, mitigate risk and improve quality and performance.

Assess your Azure cloud infrastructure: security, design, usage, and costs, by applying Modis' own Governance and Security principles and practices.

Identify operational and technical efficiency gains through interactive workshops, interviews, and by undertaking Modis' Security Vulnerabilities Assessment.

Recommend strategies to optimise costs and utilisation, as-well-as receive a formal report and presentation outlining actionable findings including a tailored roadmap for success. Know how to maximise performance and ROI from your Azure deployment.

WEEK 1+2

- Six interviews
- Three workshops
- Analysis (> 20 servers).

WEEK 3+4

- Continued analysis
- Security assessments
- Recommendations report
- Presentation and findings.

Why engage Modis?

It starts with our people. Modis' architects and engineers are amongst the most capable in the country. Our clients who've leveraged an Azure Governance and Security Health Check have gained significant cost savings, as-well-as, a more secure, robust, and scalable cloud platform.

About Modis

At Modis, we exist to connect people and businesses to the technology, solutions and opportunities they need to thrive in a rapidly advancing world. We're here to help organisations and individuals collaborate, outperform and deliver better results than they ever could in isolation. In other words, to **#ConnectSmarter**
